GitHub: <https://github.com/Ckk3>

Django Developer, Information Systems student, and active open-source contributor

SKILLS

Python, Django, Celery, SQL, AWS, Flask, Linux servers, Docker, REST APIs, AWS (Lambda, SQS, S3, CloudWatch), Docker, GitHub Actions.

PROFESSIONAL EXPERIENCE

Django Developer, Tintim.app - *Jan/23 - present*

Maintenance and development of features in Django systems, focused on improving tintim.app, a tool used by over 2000 companies. Solid experience with Docker, Linux, AWS (S3, Lambda, SQS), log analysis and incident response strategies.

Python Developer, GetHash Consultoria - *Aug/2022 - Oct/2022*

Built Flask APIs and deployed Linux servers using Docker, Nginx, and pm2.

Data Analyst Intern, Cred Vip - *May/2021 - Oct/2021*

Performed data exploration and visualization using Python, Pandas, and Matplotlib. Created reports in Jupyter and Excel. Supported business decisions through insights.

EDUCATION

Information Systems, Estácio de Sá - *Bachelor (Apr/2023 - Present)*

Studying algorithms, web development, databases, and information security. Building a strong foundation in software engineering. Currently in progress.

Computer Science, Federal Institute of Maranhão - *Bachelor (Mar/2020 - Jun/2022)*

Status: Stopped, not finished. Studied core CS topics including algorithms and programming logic. Participated in tech talks, internships, and hackathons.
