LUIS GUSTAVO MOTA

Backend Developer

Address: Caxias, Maranhão, Brazil
Email: contato.gustavomota@gmail.com
Website: https://ckk3.dev
LinkedIn: https://www.linkedin.com/in/luisgustavomota/
GitHub: https://github.com/Ckk3

SKILLS

Python, Django, SQL, AWS, Flask, Linux servers, Docker, REST API's.

PROFESSIONAL EXPERIENCE

Django Developer, Tintim.app *- Jan/23 - present*

Maintenance and development of features in Django systems, focused on improving tintim.app, a tool used by over 2000 companies for WhatsApp sales tracking. Solid experience with Docker, Linux environments, and log analysis for incident investigation.

Python Developer, GetHash Consultoria *- Aug/2022 - Oct/2022*

Develop Python Flask API's, databases, deploy Linux servers and configure using Nginx, pm2 and docker, projects documentations, git and Azure Devops.

Data Analyst Intern, Cred Vip *- May/2021 - Oct/2021*

My role involved assisting in data exploration, report generation, and data visualization using tools like Python, Jupyter Notebook, Pandas, Matplotlib, and Microsoft Office.

EDUCATION

Information Systems, Estácio de Sá *- Bachelor (Apr/2023 - Present)*

Learning about algorithms, computers, web fundamentals, history, security and more!

Computer Science, Federal Institute of Maranhão *- Bachelor (Mar/2020 - Jun/2022)*

Status: Stopped, not finished. Learned about algorithms and the basis for continuing to improve. I've participated in several speeches, internship programs and hackathons.
